

# Flood plain updates 2023

Know your risk

# San Antonio River Authority

- Comprehensive flood planning
- Flood infrastructure management
- Flood forecasting
- Strategic partnerships (local, state, federal)
- Increase community preparedness and resiliency
- Flood Protection: develop, maintenance, and communication on flood maps

# Why draft maps

- Flood Plain maps last updated in 2010
- Atlas 14, 50 years of more intense rain events changes a 100 yr storm event
- Today's maps are based on 10" rain event
- Proposed maps are based on a 100 yr storm being increased to an 11.75" rain event!

# Draft map timelines:

- OPEN HOUSE Meetings from January –March hosted by SARA with resources
- Next meeting NEAR our community
  - Tuesday March 7<sup>th</sup> at 6PM-St. Mary's University, University Center: conference room B
- Maps are anticipated to be adopted in mid 2024.
